

**REISSUE APPLICATION DECLARATION BY THE INVENTOR**

Docket Number (Optional)

**MOR3334P0851US**

I hereby declare that:

Each inventor's residence, mailing address and citizenship are stated below next to their name.

I believe the inventors named below to be the original and first inventor(s) of the subject matter which is described and claimed in patent number **US 6,339,843 B1**, granted **January 22, 2002** and for which a reissue patent is sought on the invention entitled \_\_\_\_\_,

**PROTECTIVE GARMENT ADAPTED TO BE SELECTIVELY CONFIGURED**

the specification of which

☒ is attached hereto.☐ was filed on \_\_\_\_\_ as reissue application number \_\_\_\_\_

and was amended on \_\_\_\_\_  
(If applicable)

I have reviewed and understand the contents of the above-identified specification, including the claims, as amended by any amendment referred to above.

I acknowledge the duty to disclose information which is material to patentability as defined in 37 CFR 1.56.

☐ I hereby claim foreign priority benefits under 35 U.S.C. 119(a)-(d) or (f), or 365(b). Attached is form PTO/SB/02B (or equivalent) listing the foreign applications.

I verily believe the original patent to be wholly or partly inoperative or invalid, for the reasons described below. (Check all boxes that apply.)

☐ by reason of a defective specification or drawing.☒ by reason of the patentee claiming more or less than he had the right to claim in the patent.☐ by reason of other errors.

At least one error upon which reissue is based is described below. If the reissue is a broadening reissue, such must be stated with an explanation as to the nature of the broadening:

**Claim 5 is based upon claim 1 of the patent but is broadened where claim 5 calls for "each said liner being attached [to and] within the outer shell and being detachable from within [while permitting said same liner to be detached from] the outer shell while permitting but not requiring the outer shell to be detached from within the outer shell [.]"**

**Claim 5 is intended as a hedge against a narrow construction of claim 1, under which construction claim 1 might be construed as calling for each said liner being attached directly to the outer shell.**
